

Features of

Venus Water Ionizer

- Alkaline pH 4 selection levels
- Acidic pH 4 selection levels
- Filtered water - same pH (one level)
- Manual Voltage adjustment for an extra 24 pH levels if needed
- Automatic cleaning for 10 seconds every 20 liters
- Easy to use and stylish touch screen buttons
- Automatic Indicator Alert when Filter Requires Replacement
- Easy installation of unit next to or over sink. Wall-mounted Option
- Comes with everything to Install Unit
- Fully automated system using MICOM artificial intelligence with 4 meg ram semiconductor
- Automatic turn-on, shut-off via the incoming water "switch"/tap.
- Platinum Titanium Electrodes with **Advanced Polymer Patented Technology.**
- 5 Year Warranty
- **Full finance option available with no penalty buy-out and instant approval process**
- Overheating prevention, *including hot water automatic shut off*
- Self diagnostic system.
- Automatic turn on, shut off when water pressure is applied.
- Complete warranty guarantee - Less than 3 day repair time guaranteed.

Voltage	120V / 60Hz	Electricity	0.5A 80W
Water Temp	4 ~ 30°C	Flow rate	Approx 1 gal/min
Operation	One touch type	Water Pressure Tolerances	0.7-5 kg/cm ²
Operation Type	Auto Start	Shipping Weight	Aprox 15 lbs
Method	Continue Electrolysis	Filter Duration	Approx 6-9Months or 1000 Gallons
Filter Type	Biostone .1mm or .01mm	Electrode Materials	Platinum Titanium
Dimension	13" x 9.75" x 5.5"	Chlorine Removal	< 0.05PPM
Cleaning Device	Cosmetic Button	pH Levels	Approx. 5 pH to 10 pH- Depend on water sources
Hot Water Protection	Temp. Sensor /Auto Shutoff)	Replacement Filter Type	Easy change Cartridge
